Messas. Sands:—I deem it an act of justice to myself sand the community at large, to relate the following fact, which occurred in our neighborhood in the latter part of July last. Jane C—, a young girl aged fourteen y ears was afflicted with an immelte sore on the middle of her back, which defied all the treatment of medical skill.—As she was a friend of our family I employed all the means in my power endeavoring to relieve her, but in vain. At last some person mentioned to me your Sarsapa rilla, and I immediately procured two bottles of Messas. Mosely & Tucker, your Agents, in this city, which I gave to her. I called to see her the next day and she told meshe had taken two doses and felt very much releived. I aughed immoderately at this, but she said it was really so, and, gentlemen, in a word, in two weeks from the time she commenced using it, there was neither sign nor appearance of where the sove had been.

Yours, respectfully,

J. G. HOUSEMAN, 93 Dauphin-street.

off from the blood and other juices of the body, and disposes by this means, of nearly all the impurities within us. The language of Scripture is, "in the BLOOD is the Life." If it ever becomes impure, it may be traced directly to the stoppage of the Insensible Perspiration. Thus we see, all that is necessary when the blood is stagnant, or infected, is to open the pores, and it relieves it self from all impurity INSTANTLY. Its own heat and vitality are sufficient, without one particle of medicine, except to open the pores upon the surface. Thus we see the folly of taking so much internal remedies. All practitioners, however, direct their efforts to restore the Internal contents.

stopped the perspiration ceases, and disease begins at once to develope itself. Hence, a stoppage of this flow of the juices, originates so many complaints. It is by stopping the pores, that overwhelms mankind with coughs, colds, and consumption. Nine-tenths of the world die from diseases induced by a stoppage of the In-

sensible Perspiration.

Let me ask, now, every candid mind, what course seems the most reasonable to pursue, to unstop the pores, after they are closed. Would you give physic to unstop the pores? Or would you apply something that would do this upon the surface, where the clogging actually is?

And yet I know of no physician who makes any external application to effect it. Under these circumstances, I present to physicians, and all others, McAlister's ALL-HEALING OINTMENT, or the WORLD'S SALVE. It has POWER to restore perspiration on the feet, on the head, around old sores, upon the chest, in short upon any part of the body, whether diseased slightly or severely. It has power to cause all external sores, scrofulous humors, skin diseases, poisonous wounds, to discharge their putrid matter, then heals them.

It is a Remedy that sweeps off the whole catalogue of intaneous disorders, and restores the entire cuticle to its lealthy functions.

I have used it for the last fourteen years for all diseas-

es of the chest, consumption, liver, involving the utmost danger and responsibily, and I declare before Heaven and man, that not in one single case has it failed to bene fit, when the patient was within the reach of mortal means.

I have had physicians, learned in the profession; I

have had ministers of the Gospel, Judges on the bench, Aldermen and Lawyers, gentlemen of the highest erudition and MULTITUDES of the POOR, use it in every variety of way, and there has been but one voice-one united, universal voice—saying "McAlister, your Ointment is GOOD."
